Maybe even better than free.

When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can give this download link to your friends by mail or instant messenger. No account or credit card is required to get started. Alternatively you can choose to share your download links on blogs, forums and social networking sites. We have no file size limit. Any file in any format can be uploaded and downloaded for free. Your wallet will be none-the-lighter! Just sowe're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to yourfriends device. The cost of that data transfer is covered by your internet service or the data plan on your phone. filehosting provides an easy possibility for youto send large files to your friends. So try our free and simple filehosting service now. You don't need any special software installed to be able to download yourfiles. If only we could, we surely would! On the other hand, using file can actually save you money. This is easy, fast and reliable filehosting! You don't needany kind of premium-accounts. There are no restrictions on the number of times a file can be downloaded. Just upload the file you want to share with yourfriends and we send you a download link to your file. Unfortunately, we can't make that part free. Files can be downloaded from any computer from our highspeed servers. Using file, you can circumvent those limits without paying to upgrade your team chat service. It is also allowed to link to the download pagefrom websites and communities. File is free to use with no gotchas and no hidden fees. Simply upload your file and share the link. You can upload any type offile (movies, music, documents, images, zip files and more). Our service is completely free for everyone. Keep your files private, or send your download linksonly to friends or family. You decide who you want to share your files with. Files transferred the old-fashioned way tend to pile up and be forgotten about,eventually costing you money in data storage fees. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps.
