filehosting provides an easy possibility for you to send large files to your friends. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Simply upload your file and share the link. File is free to use with no gotchas and no hidden fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Any file in any format can be uploaded and downloaded for free. Just upload the file you want to share with your friends and we send you a download link to your file. It is also allowed to link to the download page from websites and communities. Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can give this download link to your friends by mail or instant messenger. Our service iscompletely free for everyone. You don't need any special software installed to be able to download your files. We have no file size limit. Your wallet will benone-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then fromour servers to your friends device. There are no restrictions on the number of times a file can be downloaded. The cost of that data transfer is covered by yourinternet service or the data plan on your phone. Unfortunately, we can't make that part free. So try our free and simple filehosting service now. Using file, youcan circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On the other hand, using file can actuallysave you money. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size o
